Camera Bracket Platform  
for Holding Arms

**INSTRUCTIONS**

Congratulations on your purchase of the Impact Camera Bracket Platform for Holding Arms. This unique platform allows you to mount a lightweight camera or camcorder where a tripod can't be used.

The platform features a standard 1/4"-20 thread for mounting small cameras. The platform is padded to protect your camera.

The platform then can be mounted onto a baby 5/8" stud with either of two baby 5/8" receivers. Use the two receivers to build a holding arms setup including lights, mics, monitors, or other production gear.
